

Standard Round Basin with Overflow Item No. 101

For Drop-in Installation

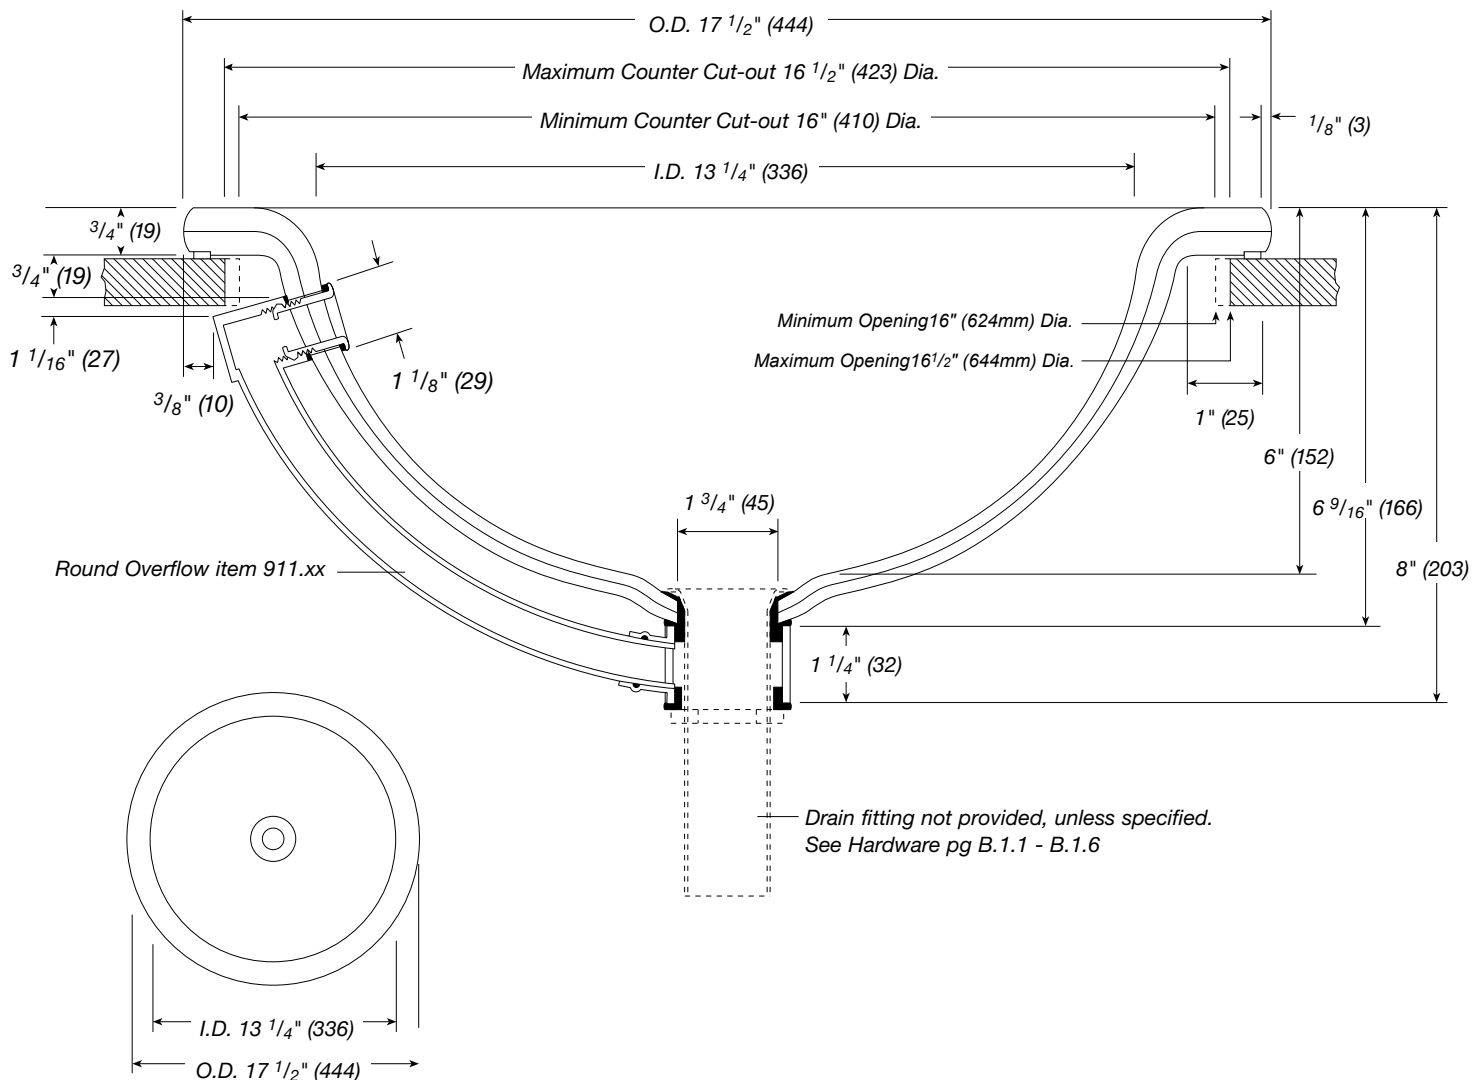

Drop-in installation is accomplished by using a self-adhesive silicone gasket applied during installation to a special groove in the flange of the bowl.

Gasket is not required for Drop-in installation on some color and finish combinations. See page 1.1.1 Colors & Finishes Guide for these choices. Order Item number 100 for any of these color and finish combinations.

*Available with or without overflow. Overflow is not recommended. Counter may need to be notched to accommodate Overflow, use maximum cut-out size.

See Hardware pg B.1.8 to order Round Overflow, Item number 911.xx as a separate item with choice of metal finish.

 See page 1.1.e for general ADA guidelines. Contact factory for installation of this product to meet ADA guidelines in coordination with your faucet specification.

Recommended Cut-out sizes:
 Maximum Counter Cut-out 16 1/2" (423) Dia.
 Minimum Counter Cut-out 16" (410) Dia.
