

Overview of standard sizes for Countertops for Round, Oval or Rectangular Vitraform Undermount or Drop-in basins.

* Depth of countertop ranges from 25" depending on size of basin and faucet selection.

NOTES:

Standard configurations shown above provide a general overview for planning, size and faucet projection using Vitraform Undermount or Drop-in basins.

All Vitraform Countertops are made to specification, including unusual shapes, off center cutout holes for basins, holes for deck-mounted faucets and other site specific requirements. Drawings for approval are provided by the factory to include installation details and coordination of faucet specification.

Contact factory for approval of basins "by other" to be used with Vitraform Countertops. Prices are by size, color and number and size of holes regardless of the shape the counter. Due to the endless options for coordination of deck or wall faucet, shape and size of sink, size of counter and site requirements, contact factory for assistance.

Drawing examples above provide a simple overview of options for Vitraform CounterTops to support Under Mount or Drop-in basins. Shown are Vitraform single Round, Oval and Rectangular Standard Basins. Countertops are also offered with holes for Vitraform Round or Oval Freestanding bowls on page 5.1.3.

Mounting systems for Countertops are shown on pg B.2.2-12 of the Hardware section.
