

Surface Clip Item No. 760.XX

Solid brass with choice of plated finishes.

Surface clips may be used to support side and back wall of glass.
See pgs B.2.6, B.2.12 for additional hardware options to coordinate with Surface Clips to support counter.

NOTE: Position of clips is adjustable. Provide adequate blocking at counter height for secure installation. Counter will be held $\frac{1}{2}$ " away from finished wall and position of clips may be adjusted on site.

NOTE: Vitraform suggests the use of waterproof wall finish material on all wet location installations.
